

CARESTREAM DRX DETECTOR

Lets you upgrade from film or CR to full-digital radiography-quickly, easily, and affordably

Carestream DRX CORE 3543

Digital Made Affordable - The DRX Core includes:

- The ability to upgrade your existing systems without the high cost of replacement equipment
- The superb image quality of full digital
- Wireless connectivity (optional) to eliminate the hassles and hazards of cables and reduce the risk of infection
- IPX 44 water-resistance rating, for enhanced reliability
- Beam-detect mode, for cable free, automatic capture activation
- Carbon-fiber twill panel for improved handling
- Detector-status IED indicators

The DRX Core Detector is designed to help optimize the imaging equipment you're using right now - quickly, easily and economically. It slides into your existing CR Systems - full X-ray rooms and mobile units - converting them to the speed and convenience of full digital.

TOP OF THE LINE PERFORMANCE

The DRX Plus Detector includes:

- The ability to share detectors between any DR room or DR mobile system
- Standard wireless connectivity to eliminate the hassles and hazards of cables and reduce the risk of infection
- The power to upgrade virtually any manufacturer's system to DR
- IPX 57 water resistance rating for superb reliability - submersible in up to a meter of water without failure
- Battery hot-swap and a separate charger, allowing the detector to be used while a spare battery is being charged

The DRX-Excel Plus feature set delivers imaging performance of the highest order. Ergonomic design and attention to detail help ensure patient comfort and user productivity. A focus on efficient system operation accelerates workflow, and high resolution image capture and processing support excelling image quality and fast, accurate diagnoses.

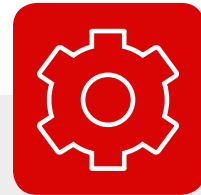

The DRX 2530C Detector includes:

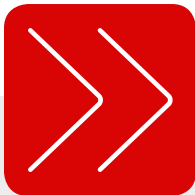

Fast, easy positioning in pediatric incubator trays

A Cesium iodide (CsI) scintillator for dose-sensitive pediatric applications

Compatibility with the DRX-revolution small-format detector holder

Faster orthopedic tabletop imaging due to its easy handling

An ergonomically designed handle for fast and safe positioning

Full compatibility with the same DRX battery charger

Carestream DRX PLUS 3543 & Carestream DRX 2530C

DRX Detectors are available with:

- Gadolinium scintillator for general radiology imaging
- Cesium iodide scintillator for low-dose applications
- 35x43mm, 43x43mm, and 25x30mm sizes
- Wireless or fixed design
