- ImagePilot includes : Console + viewer + storage
- All-in-One DR system – efficient workflow, easy to maintain
- AutoPilot Image Processing – single click image acquisition

ALL
in
ONE!

Giving Shape to Ideas

Review images anywhere in the office with the mobile client.

- Use an iPad or laptop computer to review images with patients in exam rooms, the x-ray room, or in private consultation rooms.
- Create an efficient and convenient workflow that will improve both user and patient satisfaction.

■ Shared Wireless Solution — *AeroDR*

Use in the table, on the table, and in wall stands with a single panel!
